

International Trading Corporation

ABOUT US

4-S Trading International Corporation Ltd. established in 2016, has expanded steadily to grow into a substantial player in the world of international trading. With our global presence and connectivity, we are ideally placed to bridge the gap between supply and demand, bringing together buyers and sellers in sectors as diverse as Health, Pharmaceuticals, Food and Agriculture, Energy and Water Conservation, to such Commodities as Oil and Gas, Agricultural Products and Precious Metals. Whether we buy and sell or facilitate a transaction, you may be assured that our professional expertise and vast number of contacts and connections will provide win-win conclusions for all connected parties.

OUR MISSION

Our mission is to expand our portfolio by exploiting every opportunity in any economic sector, and to penetrate more markets worldwide. Our solid shareholder base, our management team which between them have more than 150 years experience, and our dedicated employees in 6 cities around the world, are the foundation upon which we strive to grow.

OUR VISION

Our vision is to grow our local market activities into successful regional entities with operations spanning multiple sectors, capitalizing on our competitive advantages and leveraging the strength of the Group. Our focus remains steadfast on successive, successful operating cycles by increasing our reach and influence.

OUR PRODUCTS

1- FUEL, OIL & GAS PRODUCTS

We has expertise in trading: Crude oil, minerals, natural gas, LNG . We source worldwide and have access to all t key crude grades. Our teams are highly experienced, global, multi-Network and asset-backed.

We has diversified this business to trading in a wide spectrum of commodity products including crude oil, refined oil products, petrochemicals, natural gas, LNG, power, coal, carbon emissions, freight, iron ore, base metals.

2- ENERGY AND RELATED PRODUCTS

The problem of climate change and its negative impact on the environment, make it imperative to produce cleaner (greener) sustainable energy, storing it, and imparting the power to a grid efficiently. We offer a number of solutions from solar (photo-voltaic) large and small, to wind generators of different power capacities, to refuse burning furnaces and steam turbines.

a) Wind and Solar Green Energy Generators

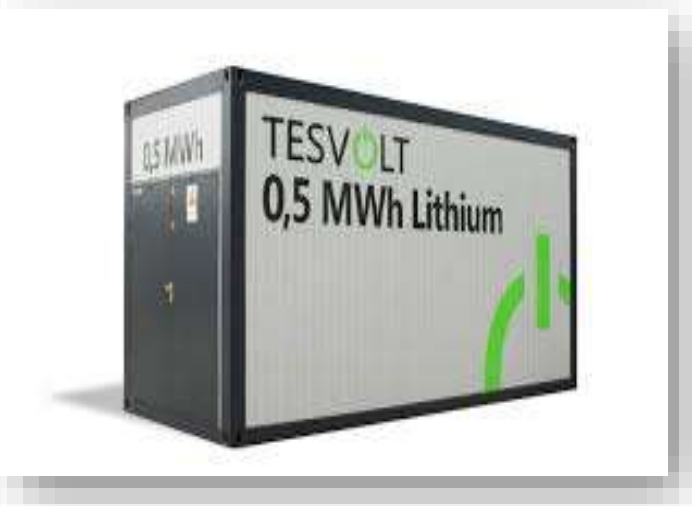

We are helping to protect the environment by promoting state of the art solutions harnessing the natural elements to produce cheaper green energy without carbon emissions. We supply complete solutions for small home use, up to large wind and solar generating parks.

b) Energy Storage Batteries

Energy generated by wind and solar means must be stored and properly discharged as electric power in times when there is no wind or sun. Lithium-ion storage batteries are the most effective storage batteries, and we offer a wide range of products for every requirement.

3- COMMODITIES

The world’s commodities markets are a complicated place. We have ensured excellent supply contracts for oil, gas, and fuel derivatives, as well as for gold and other precious metals. Our clients can be assured of our expert advice and assistance in all aspects of transactions, including shipping and finance.

a) Oil and Gas Products and Derivatives

Our long-term supply contracts ensure the most favorable rates for buyers at discount prices. We offer logistical support, ensuring that cargoes are dispatched and discharged timely.

b) Precious Metals

Our long-term supply contracts ensure the most favorable rates for buyers at discount prices. We offer logistical support, ensuring that cargoes are dispatched and discharged timely.

4- PERSONAL PROTECTIVE EQUIPMENT

The global pandemic and the new hygiene culture it has imposed have increased the demand for protective equipment manyfold. We undertake to match your purchasing demands with our suppliers on the best possible terms. We offer an impressive array of integrated services that encompass all shipping requirements, and even financing arrangements, to allow buyers to pay for ordered goods after arriving at their destination, after customs clearance, or even after door-to-door warehouse delivery. We have built a reputation of reliability and good service in a marketplace regrettably abounding in deceit and fraud.

a) Examination Gloves

4-S Trading International has responded timely to the increased demand for protective medical grade examination gloves, and secured supply contracts for large quotas from manufacturers and distributors. We currently supply in excess of 2 billion pieces of CE and FDA approved nitrile non powdered gloves per month and are extending our network of supply to cope with global demand.

b) Protective Masks

We live in a fast-changing and challenging environment, where we must at all times protect ourselves and our loved ones from airborne hazards to our health. Whether at home or outdoors, in the workplace or at recreational events, there is a need for protection against dangers from particles, pollution, microbes and viruses. Our range of protective masks have a range of features, making them suitable for any occasion and environment. They are FDA and CE certified and come with a quality guarantee.

c) Protective Gear

Uniquely designed face shields with flexible upper side and ear loops for comfortable wear. Soft and skin-friendly, for easy breathing. The PM 2.5 air shield will filter out 95% of dust, particles and bacteria.

Four layers of material. The anti dust face shield has a comfortable nose clip , filtering the passage of particles and ensuring easy breathability.

Made from smooth, soft, high quality skin-friendly cotton, it will offer cleaner air for your protection.

Trusted brand with FDA and CE approval.

5- HEALTH AND WELLNESS PRODUCTS

Nature and its products have been a source of healing throughout the ages and inspired the development of many medicines which are widely used. There is however no substitute for the curing effect of naturally obtained substances which not only treat symptoms but act preventively too.

a) Homeopathic and Organic Treatments

Nature and its products have been a source of healing throughout the ages and inspired the development of many medicines which are widely used. There is however no substitute for the curing effect of naturally obtained substances which not only treat symptoms, but act preventively too.

b) Superfoods, Supplements and Tonics

In this supercharged world it is becoming increasingly difficult to regulate a balanced healthy diet. We are what we eat, and most of us consume unhealthy foodstuffs. Our range of supplements are designed to offset the negative effects on your health and body caused by prolonged consumption of additives and preservatives, and to supplement your diet with vitamins and other natural supplements which will act as tonics and immune boosters.

c) Household Medical and Grooming Aids

Medical and personal grooming aids are a necessary requirement in the home, particularly for the elderly. Our range of aids are designed to make ordinary chores and actions easy to perform for our elderly citizens, without frustration and embarrassment.

d) Vaccines and Pharmaceuticals

We are helping the drive to satisfy the demand for rapid Covid-19 tests in these trying times, and even to procure limited quantities of anti-Covid vaccines. Our suppliers of generic prescription drugs in India are WHO certified, and ISO approved manufacturers producing quality products including oncological treatments and orphan drugs.

6- FOOD AND AGRICULTURE

The supply and effective distribution of foodstuffs is a vital part of the world economy. The supply chains of agricultural products are vital in feeding the world's population and combating poverty. Our integrated supply and shipping solutions are helping to link producers and consumers cost-effectively.

a) Food and Agricultural Products

Our suppliers include producers of wheat, corn, grains and other crops. Additionally, we can supply livestock and dairy products. Our manufacturers produce canned foods including fruit and vegetables, dairy products, fish and poultry.

b) Light and Heavy Agricultural Machinery

The means of agricultural production are an important part of achieving larger, better and cheaper crops. In order to raise production in under-developed nations, new techniques utilizing modern machinery and methods are necessary. We provide fertilizers, new or used light and heavy machinery for sowing, ploughing and harvesting, and assorted solutions for packing and transport.

c) Water Treatment and Purification Equipment

Many more people will suffer or die this year from a lack of access to clean uncontaminated water than from Covid-19. We understand the urgency of the problem, and can supply treatment and purification solutions for the home or larger plants for communities.
